## *Colonial Records in New England and New York*

Christopher C. Child, Senior Genealogist, [cchild@nehgs.org](mailto:cchild@nehgs.org)

### Introduction

Key records for New England and New York research include Vital Records, Church and Cemetery Records, Land and Probate Records, Court and Town Records.

A successful search for records begins with understanding the location of the ancestor, especially the town. Most New England records began at the town level and knowing *when* the town was settled and later incorporated helps identify whether records exist for a given time. New York records can vary under Dutch versus British colonial rule.

Table 1: Record Jurisdictions for Colonial New England and New York

State	Vital Records	Land	Probate
Connecticut	Town	Town	Probate Districts
Maine	Town	County	County
Massachusetts	Town	County	County
New Hampshire	Town	County	County
Rhode Island	Town	Town	Town
Vermont	Town	<i>It is complicated</i>	<i>It is complicated</i>
New York	Town (minimally recorded)	Colony	Colony

The 6<sup>th</sup> edition of the *Genealogist's Handbook for New England Research* released in the Fall of 2021, and the revised edition of the *New York Family History Research Guide and Gazetteer* include these important details. Also check out the *FamilySearch.org* Research Wiki's ([https://www.familysearch.org/en/wiki/Main\\_Page](https://www.familysearch.org/en/wiki/Main_Page)) for detailed information about your ancestor's town.

### Vital Records

All New England states began keeping vital records at the town level as soon as the town was incorporated or formed. While New York, once under British rule in 1665, enacted a similar law, its application was minimally enforced and only a few towns in Long Island have surviving vital records during the colonial era. Record loss also does exist, so researchers need to check dates of availability. Three major online repositories with robust collections of New England vital records:

- AmericanAncestors.org
- FamilySearch.org
- Ancestry.com

See below for general and state specific resources.

## Church and Cemetery Records

Start your search for church records at *AmericanAncestors.org* using the [online catalog](#) for church records in manuscript, microfilm, and published format. Check the collection of digitized church record manuscripts: <https://digital.americanancestors.org/digital/collection/p15869coll34> And be sure to also browse our [church databases](#).

Both FamilySearch and Ancestry have strong collections of church records. Start by searching their catalogs for specific collections:

- Ancestry.com Card Catalog: <https://www.ancestry.com/search/collections/catalog/>
- At FamilySearch.org, search by your ancestor's town: <https://www.familysearch.org/search/catalog>

Since many New Englanders were Congregationalists, consider the Congregational Library and Archives: <http://www.congregationallibrary.org/digital-collections>

## Probate Records

Probate records are at the **county** level in Maine, New Hampshire, and Massachusetts. Rhode Island probate records may be found at the **town** level, while Connecticut uses the **probate district** system. Colonial Vermont probate records probably do not exist, but if they do, they might be in New York or New Hampshire. The 6<sup>th</sup> Edition of the *Genealogist's Handbook for New England Research* will provide the family historian with information on which district contains an ancestor's records.

Check the [FamilySearch.org catalog](#) for county or town records. Go to Search > Catalog and in the Place search box type the state and county or state, county, and town. At the results page, select "Probate Records" to begin searching for records.

See below for general and state specific resources.

## Land Records

The first transfer of land from the Crown to a grantee, such as to John Mason for New Hampshire or Fernando Gorges for Maine, or from the Crown to a group of settlers known as *proprietors*, are usually found in published compilations.

Subsequent land records in New England are kept at the **county** level in Maine, New Hampshire, and Massachusetts. Connecticut and Rhode Island keep land records at the **town** level. Colonial Vermont land records may be found in New Hampshire, New York, or at the colonial Vermont town.

Once you know the county or town where your ancestor lived, you may begin searching for land records. FamilySearch.org Land Records are located through their [online Catalog](#). Choose Search > Catalog and type the location into the place box. At the results page, select “Land and Property” to begin searching through the indexes.

The [Ancestry Catalog](#) also includes land records. Choose Search > Card Catalog and type the location into the title box. Add keyword, “Land” or “Deeds.”

*See below for general and state specific resources.*

## Town Records

Early town records include land records, vital records, selectmen’s meeting minutes, tax rolls, warnings out, and a treasure trove of information about the town. If you can’t find your ancestor in a census or a church record, you might find him in the town records being elected as fence viewer or a hog reeve.

The most straightforward way to search for Town Records is through FamilySearch.org. Go to the main page and click “Search.” Select “Catalog.” At the next page, in the Place box, enter the state, county, and town you wish to find, in that order. When the search results appear, scroll through the alphabetical list until you find “Town Records.” Click to expand and view the collections.

## Records

The three major online repositories all have robust collections of colonial New England records:

- [AmericanAncestors.org](#) (some collections are free; many require a membership (\$) - see each state below for collections)
- [FamilySearch.org](#) – Use the general search or use the catalog, searching by state, county, town name
- [Ancestry.com](#) (\$)

## Land Records

The initial transfer of land from the Crown to a group of proprietors may be found in the following locations. If a published version of these records exists for your state, it will be listed below under the state-specific resources.

- Town Halls: Town clerk, tax office or assessor
- County Registry of Deeds
- Libraries and local historical Societies
- FamilySearch.org microfilm or online
- Published transcriptions of Proprietor records (see below for state-specific resources)
