- Connect your family story to notable events in history

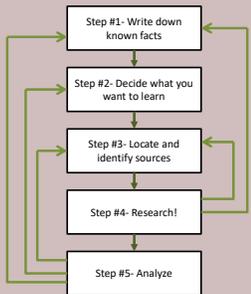

7

Steps for Researching Your Family

- Step 1 • Identify what you know
- Step 2 • Decide what you want to learn (Research goal)
- Step 3 • Identify and locate your sources
- Step 4 • Research!
- Step 5 • Analyze

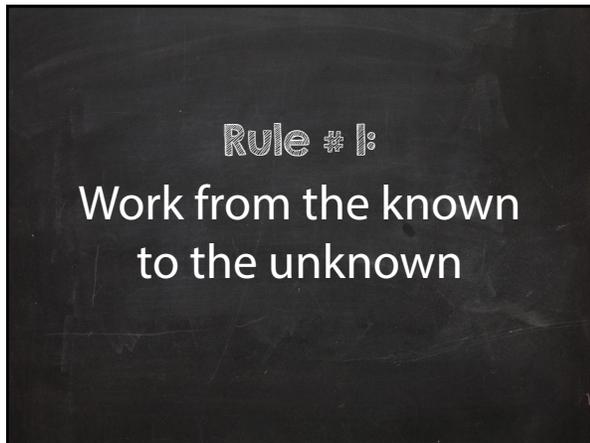

8

Rinse and Repeat

```
graph TD; S1[Step #1- Write down known facts] --> S2[Step #2- Decide what you want to learn]; S2 --> S3[Step #3- Locate and identify sources]; S3 --> S4[Step #4- Research!]; S4 --> S5[Step #5- Analyze]; S4 --> S1; S5 --> S1; S5 --> S2; S5 --> S3;
```

9

10

Step 1: Identify What You Know

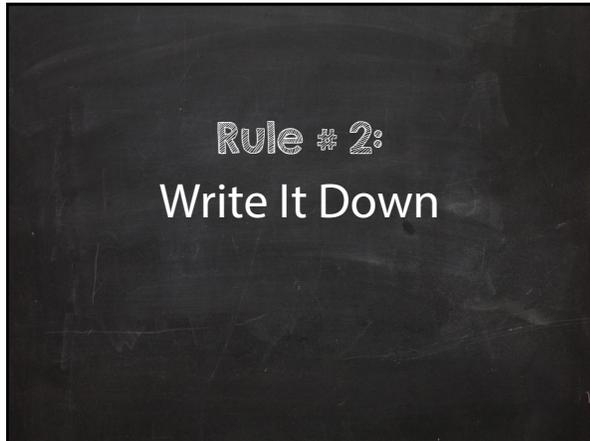

- Interview yourself
- Talk to relatives—What do they know? What family stories were they told?
- Record data using a family group sheet, chart, or genealogical software

11

Example: Family Interview Questions

- Where did you live when you were growing up?
- How did your family come to live there?
- Were there other family members in the area? What were their name?
- What was your family religion?
- What family stories have you heard about your parents? Your grandparents? More distant relatives?
- What stories have you heard about the European (or other) origins of your family members and their immigration to America?

Record the Information As You Go

- Keep a “working draft”
- Use the forms
 - Tree/pedigree chart
 - Pen/paper
 - Online (Ancestry.com, FamilySearch.org)
 - Software (FamilyTreeMaker, RootsMagic, Legacy Family Tree)
 - Family group sheet
 - Interview form/family questionnaire
 - Save original images/Documents

20

Genealogical Recording Conventions: Names

- Write surnames in all CAPITAL LETTERS
- Record a woman with her maiden name
- When the maiden name is unknown use:
 - [--?--] can be used
 - MNU
 - Just the given name

21

Genealogical Recording Conventions: Dates

- Records dates as DD-MMM-YYYY (e.g. 23 MAR 1823)
- DON'T:
 - Use slash marks: 3/12/1823
 - Use a two-digit year: 3/12/23

22

Genealogical Recording Conventions: Places

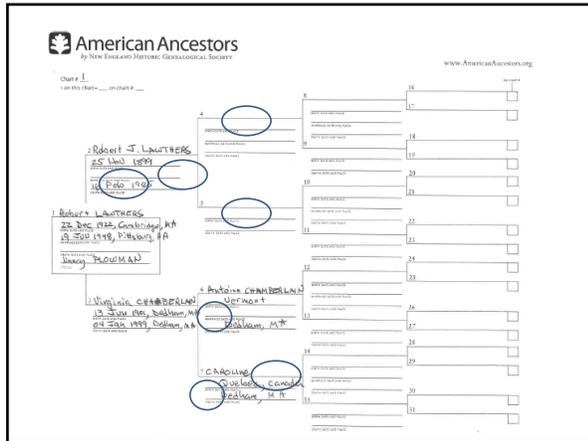

- Note smallest to largest geographic division (e.g. Orleans, Orange County, Indiana)
- For outside the U.S.:
townland/parish, county, country
- Be sure to identify counties
- Use a consistent style

23

Step 2: Decide What You Want to Learn

- Examine the information you have
- What is missing?
- What individuals or families intrigue you the most?
- Create a list of questions or objectives to research

24

25

Typical Genealogical Questions

- Genealogical Data
 - Identity
 - Events
 - Relationships
- For example:
 - Who are the parents?
 - What is the date or place of birth, marriage or death?
 - What is the spouse's name, or maiden name?
 - Who are the siblings?
 - Where did the family come from

26

Tip

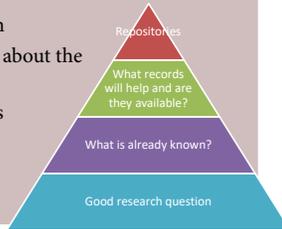

Start slowly. Don't rush to answer all your questions at once.

Don't skip generations in planning your research; it only leads to misattributed people.

27

Toolkit Item #3: Research Plan

- Research Plan: A roadmap for research
- Basic Components:
 - Good research question
 - What is already known about the question
 - List of potential records
 - List of repositories

28

Tip

Anchor your research to a *Xmǫ i*, a *Tǫegi* and a *Req i*

29

Step 3: Identify and Locate Your Sources

- Educate yourself – what types of records will supply the information you need?
- Make a list of records that will aid in your specific research
- Find resources in brick-and-mortar repositories and online repositories
- Map out your plan of action
- Don't forget the "Family Archives!"

36

Principles of Analysis

- Are you looking at a original or derivative source?
- When was the record created, i.e. how soon after the event it is capturing?
- Who created the record? A participant? Someone else?
- Who provided the information?
- Which information is primary (firsthand knowledge) and which is secondary (secondhand knowledge)
- What information do I need to capture for a citation?
