Module Roadmap

Organizing the Research Process

Organizing Research Findings

Organizing Files

Summarizing with a Genealogical Sketch

KIS: Rule #1 for Organizing

- KIS – “Keep it simple”
 - Make it easy to do the right thing
- Organizing Your
 - Research Process
 - Findings
 - Files
 - Summary

Organizing Your Research Process

Reminder – Use the Basic Tools!

- Research Plan
- Research Log

Tasks Lists and To-Dos

- Suggestion 1: Keep a dedicated research notebook
- Suggestion 2: Use a word processing program, spreadsheet or database program
- Suggestion 3: Use your genealogy software program's task lists, etc.

Evernote or OneNote

- **Note:** A single item stored in Evernote or OneNote software
- **Notebook:**
 - Evernote – a collection of notes, stacks of notebooks
 - OneNote – a collection of sections, pages, notes
- **Tags:** Descriptive topic words, e.g.
 - Probate
 - Connecticut
 - Patrick Higgins
 - Birth records

Organizing Your Findings

Reminder – Use the Basic Tools!

- Pedigree chart
- Family Group sheet

What to Do With “Orphan” Documents?

- Paper:
 - File in a folder under something like “work in progress” or “holding file” or “ongoing research”
- Digital
 - Folder with “holding” or similar name
 - Subfolders by surname
 - Excel sheet
 - Three columns
 - Surname
 - Citation and document link
 - Why important – track your thought process!!!

Organizing Your Files

Paper Versus Digital Organization

- Use a system you can maintain. There is no one “right” way to organize. It has to work for you.
- Consistency is key
- Leave a “paper” trail
- Write down your organizing decisions

Rhonda R. McClure, *Portable Genealogist: Organizing your Research*, (Boston, MA: NEHGS, 2013)

FamilySearch.org Tips

- Do NOT change your old files to a new note keeping system all at once.
 - Start slowly with just the one family you are researching right now.
 - Wait to organize the file of another family until you start research on that family.

File Naming

Who, What, Where, When

- HummerJacob-deed-EmmitsburgMD-1810
- LawthersNancy-gravemarker-GreenvillePA-2022
- HomerFred-Will-p1-Cleveland-1903
- HigginsJohn1844-death-ModorraIRE-1925
- CrottyJames-census-EastchesterNY-1900

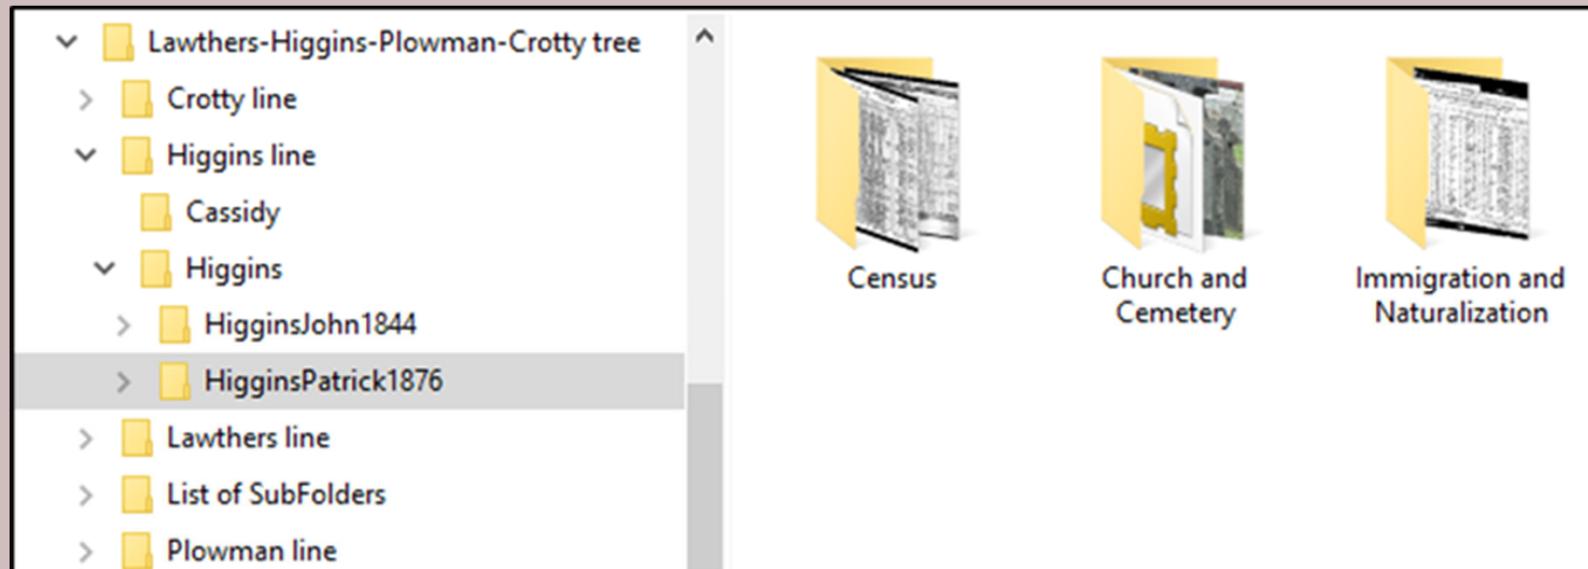

Files Exist in Folders

- Folder Structure
 - **Top Level:** “Genealogy Files” or perhaps the name of your family tree.
 - **Next Level:** Major lines for your family, e.g., Lawthers line, Higgins line, Plowman line Crotty line
 - **Third Level:** Within each major branch there will be a surname folder for the surnames you have researched.

Fourth Level – Record Types

- Vitals
- Church and Cemetery
- Census
- Military
- Newspaper
- Immigration and Citizenship
- Land
- Probate

Digital File Structure

The image displays a digital file structure. On the left, a folder tree is shown with the following items:

- Lawthers-Higgins-Plowman-Crotty tree
 - Crotty line
 - Higgins line
 - Cassidy
 - Higgins
 - HigginsJohn1844
 - HigginsPatrick1876**
 - Lawthers line
 - List of SubFolders
 - Plowman line

On the right, three document thumbnails are displayed, each with a label below it:

- Census
- Church and Cemetery
- Immigration and Naturalization

Paper Choices

- Option 1: One folder per person
- Option 2: One folder per couple
 - Individual stays with birth family until marriage
 - Family group sheet
 - Photocopies of records with source citations
- Option 3: Binders

Paper System Color Coding

- Mary Hill created the system
- Organize according to the five-generation chart
 - Father's father's line is **BLUE**
 - Father's mother's line is **GREEN**
 - Mother's father's line is **RED**
 - Mother's mother's line is **YELLOW**
- Start by sorting your “stuff” into four groups/piles/boxes based on grandparent surnames

Organizing Your Summary

The Genealogical Sketch

- Beginning: Vital information about a couple in the following order
 - Place of birth/baptism and birth/baptism date(s)
 - Place of death/burial and death/burial date(s)
 - Place of marriage and marriage date
- Middle:
 - Narrative about the family
- End: List of couple's children and their dates
- People are numbered

Genealogical Numbering Systems

- Why bother?
 - You need to be able to use compiled genealogies
 - If you write your history for family, you will need to use a system to organize the presentation
- Numbering systems
 - Ahnentafel
 - Register
 - NGSQ/Modified Register

Ahnentafel

- Starts with a person and works back – see pedigree chart
- Males always even number, females always odd number
 - Father's number, take the subject's number and double it
 - Mother's number, father + 1
- When using Ahnentafel for genealogical sketches – lists of children are not usually included

Register

- Descending numbering system with children assigned numbers if they have their own sketch

Genealogical Summary

1. **HENRY¹ DISPAW/DESPER** was born say 1618 (assuming marriage at 25), and died in Lynn, Massachusetts, in October 1676.^[10] He married in Horsemonden, Kent, 10 April 1643, **HELEN JARRET**, who died probably prior to 1673 when her husband and son Henry, both potters, immigrated to Massachusetts.

Henry Dispaw left a will dated 27 February 1674[/5?], proved 26 June 1677, mentioning sons Henry and Edward. The other children, whose baptisms are shown below, evidently died or remained in England.

Children of Henry¹ and Helen (Jarret) Dispaw/Desper, all baptisms in Horsemonden:

2. i. **HENRY² DISPAW**, b. ca. 1644; m. (1) _____; (2) **CATHERINE** _____.
- ii. **JOAN DISPAW**, bp. 13 Sept. 1646.
3. iii. **EDWARD DISPAW**, bp. 24 March 1649/50; m. **SARAH** _____.
- iv. **CHRISTOPHER DISPAW**, bp. 7 Feb. 1654.
- v. **WILLIAM DISPAW**, bp. 27 March 1657.

NGSQ (AKA Modified Register)

- Descending numbering system, every child receives a number based on birth order
- Plus signs or asterisks show children with their own sketch
