Pre-1841 Census Records

Enumerators were asked to provide statistical returns for the 1801 to 1831 censuses but some kept lists of householders along with other details notably occupations. Most of the surviving pre-1841 census entries are found in the kirk session records with a few in the Old Parish Registers. Those known to contain census information are listed below. They are not indexed.

This guide also provides information about:

Pre-1841 Census Information in the Kirk Session Records

Digital copies of the kirk session records (our reference CH2) are available on Virtual Volumes in the [Historical Search Room](#) and the [ScotlandsPeople Centre](#).

- A list of the population of the parish of Dallas, June 1811 (our reference CH2/1129/2/25-36). This record covers the whole population of this Morayshire parish. It is very unusual for early census records to include children making the 1811 census of Dallas one of the best of the known surviving records. Each entry includes address, name, rank (this can be occupation, marital status, lodger) and age.

What can these records tell me?

The transcripts have been created from a number of census records and parish lists from six parishes in Scotland. Graham and Emma Maxwell created the transcripts from original material held in the National Records of Scotland. The details recorded in each census and parish list will vary, but most records will include a combination of the following facts:

- Name

REMARKS OF THE MINISTER OF THE PARISH.

It is computed that about 100 persons, on the night of 30th March were temporarily absent & one temporarily resident - but these, with one or two exceptions being Seamen in Ships, or in capacity pupils of Schools B. C. and D. are inapplicable - After careful investigation of the Enumerator's Book no other remark seems to be necessary further than that to the best of judgement & belief it is perfectly correct & filled up in conformity with the instructions transmitted.

W. H. Hamilton
Minister of the Parish
Monday Evening
15th April 1851.

Before this Book is delivered to the Superintendent of the Parish for revision, the Enumerator is required to fill up the following Tables as correctly as he can.

ENUMERATOR'S SUMMARY.

In making this Summary, write in *one* line against the name of EACH Parish or Quoad Sacra Parish the number of Houses and of their inmates; and in a *second* line the computed numbers who were in barges, boats, barns, tents, or in the open air, from Table b. A third line must contain the total numbers in the Parish or Quoad Sacra Parish, or in that part of the Parish or Quoad Sacra Parish within the Enumeration District; not, however, including the inmates of any Public Institution not enumerated by him.

(a)

	Total in the Enumeration District	169	156	2		379	527	906

Estimated number of persons, who have not been enumerated as inmates of any dwelling house, but who it is believed have slept or abode in the District on the night preceding the day of Enumeration—

	Males	Females	Total
In barges, boats, or other small vessels remaining stationary on canals or other navigable waters.....			
In barns, sheds, or the like.....			
In tents, or in the open air.....			
TOTAL			

The above numbers do not include people in counting or other excusing vessels, nor persons travelling on railways or otherwise, through the district.

When many persons not inhabitants are present, or many of the settled inhabitants are temporarily absent—
The Enumerator must also return:

(c)

	Persons.		
	Males.	Females.	Total.
(1) The estimated number of such persons who are returned in the subsequent pages as having slept in his district on the night of March 30th, but who were there only temporarily			

[State here the cause of the presence of so many strangers—such as a fair, the construction of a railway, &c.]

(d)

	Persons.		
	Males.	Females.	Total.
(2) The estimated number of persons who were absent from the district on the night of March 30th, but who usually dwell in the district.....			

Seasons in ships, or in counting vessels on the night of March 30th, should not be included in the estimate, as they will be returned at the ports.
[State here the cause of the absence of so many of the inhabitants, whether in fishing or in other employments.]

Hearth Tax 1690-1695

- Tax of 14 shillings on every hearth of both landowners and tenants to raise money for the army
- Hospitals and paupers were exempt from the tax
- Hearth lists are arranged by county and then by parish or landed estate
- Lists indicate the size of the house
- Most county hearth lists contain householders; some counties only give total number of hearths and money collected; small number of counties do not have hearth lists

Hearth tax records 1691-1695

[Records](#) / [Historical Tax Rolls](#) / [Hearth tax records 1691-1695](#)

Hearth tax rolls list the people who were liable for tax on hearths (including kilns) in Scotland in the 1690s. They provide clues about the size of each building, place, estate or parish in the late 17th century. Heads of households of each building were liable for a tax of 14 shillings, payable at Candlemas 1691, and only hospitals and the poor were exempt. There were huge difficulties in collecting the tax, particularly in the Highlands, and attempts to collect the tax went on in some parts of Scotland until 1695.

The surviving hearth tax rolls (National Records of Scotland reference E69) are generally arranged by county and then parish or by landed estate. The rolls for the following counties contain lists of householders (some arranged by estate or place): Angus, Ayr, Argyll (but with some areas missing), Bute, Berwick, Clackmannan, Dumbarton, East Lothian, Fife, Kincardine, Lanark, Midlothian, Perth, Renfrew, Roxburgh, Stirling, Sutherland, West Lothian and Wigtown.

The rolls for the counties of Aberdeen, Banff, Dumfries, Kirkcudbright, Moray, Nairn, Peebles and Selkirk give only the total number of hearths surveyed and money collected in each parish or estate. The roll for Inverness-shire consists mainly of a summary of a small number of parishes without listing inhabitants but includes a list of burgesses or inhabitants of the town of Inverness and a list of poor in the parishes surveyed.

In this series of hearth tax rolls there are none for Orkney, Shetland, Caithness, Ross and Cromarty. For information on hearth tax rolls for Dumfriesshire, Fife, Edinburgh, Shetland and Ross-shire in private records in the NRS see the guide on tax records at www.nas.gov.uk/guides/taxation.asp.

Please note that hearth tax records are difficult to read, if you are not familiar with 17th century handwriting. For guidance on 17th century handwriting visit www.scottishhandwriting.com.

Male Servant Tax (1777-1798)

- Levied on households employing “non-essential” male servants from 1777 onwards
- This excluded farm laborers, industrial workers, and servants in businesses with shops and inns
- Tax was aimed primarily at the wealthy who could afford domestic or personal servants. Example: butlers, valets, grooms coachmen, and gardeners

Male servant tax rolls 1777-1798

[Records](#) / [Historical Tax Rolls](#) / [Male servant tax rolls 1777-1798](#)

The male servant tax was levied on the households employing 'non-essential' male servants from 1777 onwards. This excluded farm labourers, industrial workers and servants in businesses like shops and inns. The tax was aimed primarily at the wealthy in town and country who could afford domestic or personal servants (such as cooks, butlers, valets, grooms, gardeners and coachmen). The tax schedules (National Records of Scotland, E326/5) cover the years 1777-1779, 1785-1795 and 1797-1798 and are divided county by county and then by parish and household, with separate volumes for the royal burghs. The parish and burgh schedules are arranged by household, listing the name of each household liable for the tax and usually the name and designation of each servant.
